FRM® Part I *Exam Map*

Where the marks are, how the exam works, and a 12-week route to exam day.

100	4h	240	47%
multiple-choice questions	one session	study hours, a typical target	pass rate, Nov 2025 (GARP)

Where the marks are, and what to master

High priority: the heaviest topics. Weights: GARP 2026 FRM Part I study guide.

> **The two gold topics are 60% of the exam.** Valuation and Risk Models and Financial Markets and Products decide most results. Quant is the toolkit both of them use.

Exam windows: FRM Part I runs in May, August and November. Check dates and fees at garp.org.

STRATEGY

A 12-week route that follows how topics build on each other

About 20 hours a week. Studying 12 hours a week? Stretch the same order over 20 weeks.

Wk 1–2	**Foundations of Risk Management**	Governance, CAPM and the classic failures. Sets the vocabulary.
Wk 3–5	**Quantitative Analysis**	Probability, regression, time series, simulation.
Wk 6–8	**Financial Markets and Products**	Banks, futures, forwards, swaps, options, MBS.
Wk 9–11	**Valuation and Risk Models**	VaR, bond and option pricing, credit and operational risk.
Wk 12	**Mock exams + review**	Two full mocks under time. Fix the error pattern.

How to study it

- **Refresh the maths first.** Quant is the toolkit for both gold topics; weak statistics slows everything after it.
- **Practise on your exam calculator.** Bond, option and VaR questions are speed tests as much as knowledge tests.
- **Keep an error log.** Write why each wrong answer was wrong; retake those questions until you get them right twice.
- **Last month is questions and mocks.** Full mocks under time show your real pace.

Exam-day rules worth knowing

- **About 2.4 minutes per question.** Flag anything over three minutes and come back.
- **No penalty for wrong answers.** Never leave a question blank.
- **Approved calculators only.** TI BA II Plus or HP 12C models: practise on the one you will use.
- **Formulas are not given.** Know them well enough to rebuild them.

PRACTISE WITH US

Your prep keeps going between sessions

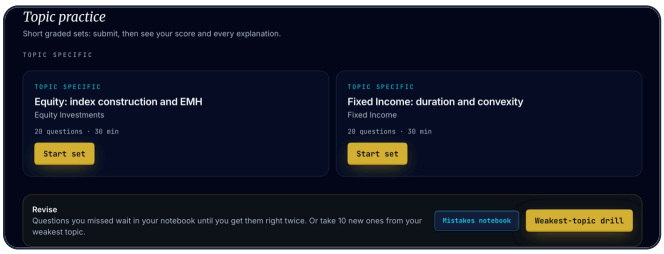

Sessions, your study plan and progress in one place. Timed FRM Part I mocks and topic drills are coming soon; this is how they already work for our CFA students. financeinpractice.me/#portal

Exam-day screen. Clock, question map, flags, crossing out and notes.

Results compared. Every mock and every topic against your last attempt.

Topic exams and a weakest-topic drill. Missed questions wait in a notebook until you get them right twice.

Shown: the CFA Level I portal, sample data.

Free Question Bank

Original FRM Part I questions on our website, each with the worked solution, why the wrong answers are wrong and the exam trap.
