Where the marks are, and what to master

High priority: the heaviest topics. Weights: CFA Institute 2027 topic outline.

> **The five gold topics are about 55–70% of the exam.** Ethics, Quant, FSA, Equities and Fixed Income decide most results. Master them first, then build the rest around them.

Exam windows: Level I runs in February, May, August and November. Check dates and fees at cfainstitute.org.

STRATEGY

A 12-week route that follows how topics build on each other

About 25 hours a week. Studying 15 hours a week? Stretch the same order over 20 weeks.

Wk 1–2	**Quantitative Methods + Economics**	The toolkit: time value, statistics, rates.
Wk 3–4	**Financial Statement Analysis**	Biggest reading load. Start early.
Wk 5	**Corporate Finance**	Short; builds on FSA.
Wk 6–7	**Equities**	Valuation models and market structure.
Wk 8–9	**Fixed Income**	Pricing, yield, duration. Practise daily.
Wk 10	**Derivatives + Alternative Investments**	Payoffs and how each asset behaves.
Wk 11	**Portfolio Construction + Ethics**	Ethics last, so it is fresh on exam day.
Wk 12	**Mock exams + review**	Two full mocks. Fix the error pattern, not just the question.

How to study it

- **Practise the week you learn.** Do questions on each reading within days, not saved for the end.
- **Keep an error log.** Write why each wrong answer was wrong; retake those questions until you get them right twice.
- **Gold topics first, none skipped.** The 6–9% topics still decide close results.
- **Last month is questions and mocks.** Reading new material late costs more than it adds.

Exam-day rules worth knowing

- **About 90 seconds per question.** Flag anything over two minutes and come back.
- **No penalty for wrong answers.** Never leave a question blank.
- **Formulas are not given.** Know them well enough to rebuild them, not just recite them.
- **Mocks under exam timing** in the last two weeks show your real pace.

PRACTISE WITH US

Your prep keeps going between sessions

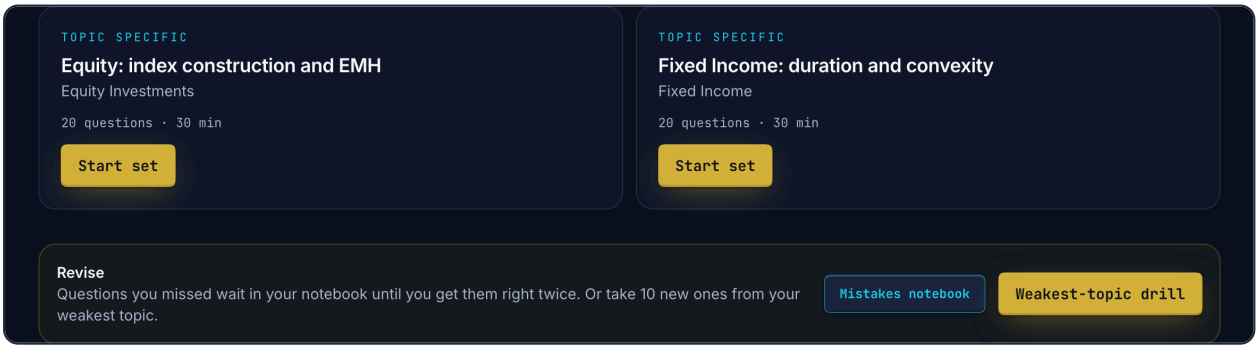

Our students sit full timed mocks and topic exams on a screen like exam day's, compare every result with the last one, and drill their weakest topic. financeinpractice.me/#portal

1 · Exam-day screen. Clock, question map, flags, crossing out and notes.

2 · Results compared. Every mock against the last one, with a review of each.

3 · Topic exams and a weakest-topic drill. Missed questions wait in a notebook until you get them right twice.
